EXECUTIVE SUMMARY

Designer and analyst focused on user experience. Working end to end, from user research and interface design to front-end and back-end implementation. Keeping projects organized and moving from concept to launch.

EDUCATION

University of Colorado Boulder – College of Media, Design and Information Expected May 2027
Bachelor of Science in Information Science
Minor in Japanese · Creative Technology and Design

- GPA 3.5
- 2023 Dean's List · 2023 Virgin America Scholarship

Relevant Courses: Advanced Japanese, Designing Interactions, Programming for Information Science, Information Ecosystems, Image, User-Centered Design, Quantitative Reasoning

EXPERIENCE

Spectrum, Denver, Colorado Jun 2026 to Aug 2026
Video Product Intern

- Redesigned user flows and UI components across Spectrum TV's streaming app to improve clarity and consistency
- Audited competitor platforms to surface usability gaps and prioritize design recommendations
- Authored project requirements and partnered with other teams to ship designs on schedule

CU Boulder College of Engineering, Boulder, Colorado Apr 2024 to Jul 2026
Data Analytics Student Employee

- Utilized Qualtrics and survey analytics to produce multiple daily reports to identify trends and insights
- Built data visualizations and interactive user-centered dashboards in Tableau to support data-driven insights and decisions
- Leveraged Excel to prepare, standardize, and reconcile diverse datasets for accuracy and usability

eScience, Manila, Philippines May 2025 to Jul 2025
Data and Design Intern

- Gained proficiency in Microsoft tools, including Power Automate and Power BI
- Designed and developed interactive dashboards and visualizations in Power BI and Tableau
- Streamlined and standardized data sets using Excel and Power Automate to improve accuracy and efficiency

Natural Hazards Center, Boulder, Colorado Feb 2024 to Jun 2025
Undergraduate Research Assistant

- Supported the editing, quality review, and publication of reports through the Natural Hazards Center's back-end platform
- Processed and structured data from Converge training programs to enhance understanding of user behavior

PROJECTS

Pokémon Trading Card Analysis Nov 2024

- Applied Python along with Pandas and Seaborn modules to collect card data from an API and two CSVs into one data frame
- Analyzed the results from a game design perspective. Created a report discussing "Power Creep", an issue in game design, where recent cards have affected the way the game is played

Buff Life Prototype Development Nov 2025

- Used Figma to develop a high-fidelity prototype of a mobile app version of CU Boulder's student portal
- Researched user-needs and wants through surveying and interviews throughout campus

LEADERSHIP

Filipino Student Association, Boulder, Colorado Aug 2024 to May 2025
Founder - Event Coordinator

- Partnered with groups including Asian Unity to plan and host cultural events fostering connection and engagement
- Communicated with the Treasurer to organize and oversee funding for operational needs and future expenditures
